KEY LINER ARRIVES HOME AS WILD THROG CHEERS

Graf Zeppelin Makes Fast Time on Return Trip Covering 4003 Miles in Less Than 69 Hours

FRIEDRICHSHAFEN, Nov. 1. (Thursday) (AP)—The Graf Zeppelin arrived over her home port at 4:30 a.m., mid-European time (10:50 p.m., eastern standard time) just 68 hours and 56 minutes from the start of her flight. The airship was landed at 7:00 a.m. and stowed in her hangar fifteen minutes later.

She had completed the first round-trip commercial air crossing over the Atlantic. The distance from Lakehurst, N. J., which she left at 1:34 a.m., eastern standard time, on Monday, is estimated at 4003 miles. This is little more than half the time she required on her westward flight when she flew 6000 miles by the same route.

NEW RECORD SET

The Graf Zeppelin established a new record for eastward flight by a dirigible across the Atlantic. The British dirigible R-34, in 1919, made the only previous eastward flight from Roosevelt Field to England in seventy-five hours.

With the approach of the dirigible, the population of the town, swelled many times its normal size, was greeted by volleys of saluting shots. The people pushed back and forth in the streets, and the Graf Zeppelin works already were jammed at the hangar.

The airship, however, did not go directly to the field, but cruised east over the town. It was raining, but there was no wind.

Not all of the thousands who had gathered to welcome the dirigible needed the salvo of guns to tell them that the ship successfully had completed her voyage. Despite the rain which had been falling all night, many persons had sacrificed sleep in order to make an early pilgrimage to the airship where a great outpouring of humanity had gathered as early as 4 a.m. local time.

SHOTS RESOUND

Large details of police and several companies of soldiers held the crowd back when the Graf Zeppelin suddenly dove in sight. It was flying very low and fast from the hangar with bright lights shining on the airship. Despite the rain which had been falling all night, many persons had sacrificed sleep in order to make an early pilgrimage to the airship where a great outpouring of humanity had gathered as early as 4 a.m. local time.

ENORMOUS CROWD

Never has this town witnessed such excitement and such a crush of humanity as today. Like a volcano in a gold rush, the main streets were jammed with crowds of people, automobiles and vehicles of every description. Windows were only able to crawl along, being held up by the crowds looking the thoroughfare before a bulletin board, giving the progress of the airship.

CONFIDENT HE'LL WIN

Hoover Voices Faith in People

Statement Made at Press Conference on Eve of Trip Westward

Departure from Capital on Last Campaign Jaunt Set for Today

WASHINGTON, Oct. 31. (AP)—Firmly confident that he will win if the people who believe with the Republicans go to the polls, Herbert Hoover tonight went into the home stretch of his race for the Presidency.

On the eve of his departure from Washington for the long journey to his California home to vote, the Republican candidate addressed the New York declaration of a week ago that he expects his party to emerge victorious next Tuesday.

"We shall win this election without any question of doubt if the people who believe with us go to the polls," the nominee said in response to a question at his final press conference before he begins the westward trip.

"I am confident that it is a corresponding confidence."

"There is nothing to be added to the first statement," Mr. Hoover repeated.

The candidate said good-by today to many prominent Republicans, including William J. Donovan, assistant Attorney-General; Ogden Mills, Undersecretary of the Treasury; and Theodore Roosevelt Jr., late in the day Chief Justice.

Hoover Extra-Session Plan Called "Surrender" for Obtaining Votes

New Jersey Crowds Light Way of Candidate by Colored Flares

NEWARK, N. J., Oct. 31. (AP)—Welcomed to New Jersey by a torch-light parade, Gov. Smith, tonight, in the same hall where his rival for the Presidency spoke earlier in the campaign, accused the Republican party of attempting to fool the American people on farm relief, labor, tariff, prohibition and a number of other issues.

On crossing the Hudson River from New York, the Democratic nominee raved over more than twelve miles of highways in Jersey City and Newark between lines of people who illuminated his path with red and white flares.

The Governor was welcomed to One Hundred and Thirtieth Regimental Armory of the New Jersey National Guard amid shouts, cheering, the tossing of papers and the shrieks of horns.

TEXT FROM LINCOLN

He took as his text Lincoln's famous quotation: "You can fool some of the people all of the time, all of the people some of the time, but you cannot fool all of the people all of the time."

The Governor then referred to Herbert Hoover's proposal for an extra session of Congress on the farm problem and demanded to know what would be accomplished at that session.

"The Governor's speech tonight was the last he will deliver outside of New York between now and the end of the campaign. He has no more speeches scheduled, but both of them will be made in home territory, one in Brooklyn Friday night and the other in Newark Saturday night."

PROMISE TO WORKERS

Besides raking his opponent's position on the farm relief issue, the Governor promised the workmen of the nation if the Democratic party were placed in power that in regard to the use of injunctions in labor disputes a "definite remedy by law" would be provided to preserve the constitutional guarantee of individual liberty, free speech and free assembly.

The Democratic candidate also accused Mr. Hoover of failure to make his position clear on various issues in the campaign.

"I have made myself perfectly clear," he said. "The man who has not made himself clear is Mr. Hoover."

Declaring he took as the text of his address the statement that "you can fool some of the people all of the time, all of the people some of the time, but you cannot fool all of the people all of the time," the nominee asked why Charles E. Hughes had not accepted the Republican candidacy.

HUGHES MAKES FIGHT

"He is the only one who is making any fight," he declared. "What are we up against? The same old thing that we have suffered for eight years; a candidate for the office of the Presidency of the United States who is unable to talk for himself."

The Governor contended that as an "indication of the desperation of the Republican party on the farm question," Gov. McMillen of Nebraska had hurried to Washington and urged the Republican candidate to make a promise to call the Congress into special session in order to handle the farm question.

"The story of these conferences is an interesting sidelight on the Republican candidate's position. They must have begged him to say something, anything to make some appeal to the farmer. They must have pleaded for just a few kind words. Then word came from the headquarters of Mr. Hoover."

Will Rogers Remarks:

NEW YORK, Oct. 31.

[To the Editor of The Times:] Well, the promising season ends next Tuesday and at about 8 o'clock that same night the "allibi" season opens and lasts for the next four years. To show you what campaign promises amount to, can you remember back a few weeks ago when the promise was made on both sides that "the campaign was to be run on a high plane."

This campaign ends Tuesday but it will take two generations to sweep up the dirt.

Yours,
WILL ROGERS.

BORAH PREDICTS NEW ERA

Maryland Audience Goes Wild as Senator Flays Smith and Extols Herbert Hoover

BALTIMORE, Oct. 31. (AP)—Senator William H. Borah of Idaho, a leading campaigner for Herbert Hoover's Presidential candidacy, received a wildly enthusiastic demonstration tonight from a crowd which taxed the 15,000 capacity of the Fifth Regiment Armory here.

It was nearly fifteen minutes before the Senator could quiet his audience to make his speech in which he predicted a "new era" in this country's relations with Central American nations if Herbert Hoover is elected.

Practically the entire audience rose and wildly waved flags and the Senator tried in vain to restore quiet.

When the Senator assailed the tariff, immigration and prohibition positions of Gov. Smith, boos and hisses resounded from many parts of the armory at each mention of the army at each mention of the Democratic Presidential candidate's name.

Snow Falls in Yreka and Rain Says in Eureka

SAN FRANCISCO, Oct. 31. (AP)—Yreka remained in the grip of a wet spot lapping over from the Pacific Northwest today, but the rest of California enjoyed sunshine.

The Weather Bureau was informed there was 40 of an inch of rain at Eureka, making the season total to date 2.78 inches, against a seasonal last year of 2.05.

YREKA, Oct. 31. (AP)—An inch and a half of snow fell late today at Hill, in Northern Shasta county. The snow at this point was the first in October, in the memory of the oldest inhabitant. Twenty hundredths of an inch of rain also fell here today.

Colorado and Wyoming Get Snowstorms

DENVER, Oct. 31. (AP)—Denver experienced its second white blanket of the season today when snow, whirled by a northeast wind, started falling. The forecast was snow and colder.

CHEYENNE (Wyo.) Oct. 31. (AP)—Winter made its second invasion of the season in Wyoming today. Central Wyoming was blanketed from three to four inches of snow. Flakes also were falling in Sheridan and Yellowstone Park.

El Paso Shaken by Earthquake

EL PASO, Oct. 31. (AP)—El Paso buildings were shaken tonight by the first earthquake felt here in more than five years. The shock was felt in a number of places within a radius of thirty miles in the valley.

No damage at any point was reported, but the disturbance was sufficiently severe to alarm many. The shock lasted several seconds.

MANY BOOTLEGGERS SEIZED
CROCKETT, Oct. 31. (AP)—Fifty Contra Costa county prohibition agents today raided sixteen asserted bootlegging in gray-back contraband, seized and destroyed \$7000 worth of liquor. The prisoners pleaded guilty and paid fines ranging from \$400 up.

GRAND JURY CHARGES WILLFUL CORRUPTION

Secret Agreement to "Fix" the Julian Fraud Cases Alleged; Special Prosecutor Named

A formal accusation and indictment charging Dist. Atty. Keyes with "willful and corrupt misconduct in office" was returned by the Los Angeles county grand jury to Presiding Judge Edmonds last night. Three other indictments were returned but kept secret.

The allegations are based upon what is described by the jury as a corrupt agreement between Keyes and Jacob Berman, alias Jack Bennett, Ed Rosenberg, his brother, Jack Rosenberg, all defendants in the Julian fraud cases, whereby it is charged that the four men conspired with the District Attorney improperly to bring about the release of the accused.

Immediately after the return of the accusation Judge Edmonds announced that, as required by law where a District Attorney is so accused, he has named a special prosecutor to have charge of the case. This special prosecutor is John W. Hart, chairman of the grand jury committee of the County Bar Association.

Shortly after the warrants were placed in his hands in Judge Edmonds's court, Deputy Sheriff Peoples called for Dist. Atty. Keyes at the latter's home in Beverly Hills. Keyes was not at home and Peoples left word that he would like to speak to the District Attorney.

About one hour later Dist. Atty. Keyes called for Peoples at the Sheriff's office.

"I understand you were calling me, Mr. Peoples," Keyes said, according to the deputy's report of the conversation.

"Yes," Peoples replied, "I have an accusation against you and a warrant for your arrest."

"When do you want to see me?" the District Attorney asked.

"The warrant is returnable before Judge Edmonds at 10 a.m. tomorrow before Judge Edmonds," Peoples said.

"I shall see you at your office at ten minutes to ten o'clock," Keyes said, "and surrender to you."

Later Keyes was not at home and could not be located for a statement as to his proceedings a few hours previous.

COMMENT WITHHELD BY WEBB

Attorney General Declines to Discuss Jury Action or Judge's Appointment

SAN FRANCISCO, Oct. 31. (AP)—Att. Gen. Webb tonight refused to discuss the indictment of Dist. Atty. Keyes, Los Angeles, until such time as he is notified officially of the grand jury's action.

"This is the first information I have received that Mr. Keyes has been accused or indicted," said Webb. "I know nothing of the situation, and naturally cannot comment on the charges."

"However, if the District Attorney has been indicted, he is disqualified as a prosecutor, and it devolves upon the Attorney-General to appoint someone to take charge of his office. Also, some one must, of course, be appointed to prosecute his case. I do not care at this time to discuss whom I might appoint in his place, or whether I shall make such an appointment since I am not in my office and have no facts before me officially."

Informing that Judge Edmonds of Los Angeles had named John W. Hart, Los Angeles attorney, to prosecute Keyes, Webb said: "I have nothing to say on that. Judge Edmonds was on the bench when he took such action. I do not propose to enter into a legal controversy from my chair here in a club."

(Continued on page 2, column 1)

JUDGE EDMONDS STATEMENT

Following is Judge Edmonds's statement in the Keyes case: The grand jury of the county of Los Angeles has returned an accusation against Am Keyes as District Attorney of Los Angeles county, and it becomes my duty to appoint some one to act as prosecuting officer in the matter. I have accordingly drafted John W. Hart for this important duty and appointed him to act. Mr. Hart is a lawyer of outstanding ability and unquestioned integrity and I am confident that his duty to the people, as well as to the accused, will be most fairly and vigorously performed.

Mr. Hart's appointment has been made without consulting him, because of his standing at the bar and in the community and, also, because he is the chairman of the grand jury committee of the Los Angeles Bar Association. I realize that the work which I am calling upon him for is a most unpleasant duty for any lawyer to perform, yet it is one which is owing to the community when the public interest is so seriously involved.

The community should be reminded that Mr. Keyes is presumed to be innocent of the charges against him until the contrary is proved. The truth or falsity of the facts which have been stated in the accusation of the grand jury will be determined upon a trial. Until the conclusion of such proceedings the public should suspend its judgment.

(Signed) DOUGLAS L. EDMONDS
Presiding Judge.

PHILADELPHIA'S POLICE ON PINS

Almost Entirely New Force Will Be Organized
Mayor to Dismiss or Demote All But Spotless
Districts Will Be Altered to Eliminate Politics

PHILADELPHIA, Oct. 31. (AP)—The greatest police shake-up in the history of American municipalities, an estimate that it will amount to the formation of nearly an entirely new force, is planned by Mayor Maestri in an effort to rid the bureau of "rafters," as revealed by the grand jury investigating organized lawlessness and police corruption.

CHANGE IN DISTRICTS

The reorganization will include a revision of the boundary lines of police districts so that they no longer

LAKE BLUFF (Ill.) Oct. 31. (AP)—Sticking steadfastly to a fantastic story of self-immolation as her life ebbed away in a Lake Forest Hospital, a 30-year-old woman tonight provided for the authorities an unshakable mystery by her almost unbelievable tale of attempting to burn herself alive in the furnace of the Lake Bluff Village Hall to prove to herself her spiritual existence.

WEIRD STORY DOUBTED

Her weird story of thrusting her limbs into the live coals of the police station furnace to prove her faith in the spirit world has been doubted from the first by skeptical authorities and doctors who believe that no human being voluntarily could withstand torture such as she described. She offered little more for her actions and the authorities, for the want of a better theory, are obliged to believe certain parts of it.

PHYSICIANS CLASH

Physicians said she had not been criminally assaulted and while the board of the City Hall was bloodstained from her footprints, it was little evidence of any struggle having taken place there.

Charles Hitchcock, night policeman in Lake Bluff, a friend of the girl, was unable to shed any light on the mystery. It is believed she may have gone to the police station to see Hitchcock, a former actor and once her instructor in public speaking. Hitchcock, married and the father of four children, was at home suffering from a broken leg, however, and said he knew the girl only casually and had not seen her for some time, although she sometimes called on him to report progress in her sales work, with which he had helped her.

A clash developed during the day between Chief of Police Barney Rosenhager of Lake Bluff and other authorities. Hargrave insisted that the Chief, who had examined the ashes in the furnace, had destroyed them and instructed him to bring the ashes for further examination. Rosenhager also disputed a story by the village employee who found the girl in the basement.

Rosenhager said he had locked the basement at 9 o'clock Monday night and had found no one there. Chris Louie, the employee, said Rosenhager had instructed him to start the fire the next morning, something that Rosenhager himself always had done previously. When he went to the basement to do this he found the girl. Rosenhager denied that he had told Louie to go to the basement to start the fire.

(AP)—The October grand jury today returned two bills of indictment against William (Baller) Freedman, former boxer of Chicago, now under arrest at New York City on a fugitive warrant. The indictments charge him with attempting to obstruct justice; attempting to prevent a witness from testifying in connection with the special grand jury investigation of bootlegging and police corruption, and aggravated assault and battery.

Freedman is charged with assaulting Louis R. Eilman of this city, asserted alcohol guard for Max (Doc-Boo) Hoff, dubbed by Dist. Atty. Monaghan, the "king of bootleggers."

The power plant at Culiacan already has been purchased by the company and on the present trip negotiations for acquiring the plants at Guaymas and Hermosillo will be closed. An option is held on the power plant at Culiacan and negotiations are under way for the purchase of the ice company supplying Huatabampo. He said control of the power plants at Agua Caliente and Morelia also was being acquired.

Save Your Physical Being From Middle AGE Lethargy

Enlarged Gland Surgery Not Expensive

The underlying body changes of old age are to be found in the ductless glands. Largely by the degree of nourishment an organ receives through its blood supply is its efficiency determined. The most evidence of old age, premature or otherwise, is the change of functional changes in the various organs of the body, such as the heart, blood vessels and the kidneys. A man is as old as his arteries, and the arteries are as young or as old as the ductless glands which supply their nutrition.

Coolidge Accepts Resignation of Ambassador

President Praises Service in Germany and England

Diplomat Candidate for New York Senatorship

WASHINGTON, Oct. 31. (AP)—President Coolidge accepted today the resignation of Ambassador H. Houghton, Ambassador to London, now the Republican candidate for United States Senator from New York.

In the letter accepting Mr. Houghton's resignation President Coolidge praised the former Ambassador's "splendid record" as ambassador to Berlin, whence he was promoted to London with "equally marked" success.

"Your recent communication tendering your resignation as our Ambassador to Great Britain has been received," Mr. Coolidge's letter said. "I need not tell you how much I shall feel the loss of your services in that very important post, even though it is to be followed by a continuation of your public life in the Senatorship of the State of New York."

"You were our first Ambassador to Germany after the war, where your discretion and ability represented with so much fidelity the attitude of our government, which soon gained for you the entire confidence of that country and did so much to re-establish our friendly relations. Your influence there was of great importance in restoring a spirit of peace throughout Europe. Because of that splendid record I asked you to take the more burdensome post at London, where your services had been equally marked."

"The sacrifices you have made in serving your country have been very great. Those of us who are most familiar with them place the highest value on them."

Robbers Visit Banker's Home

ARMY (Mich.) Oct. 31. (AP)—Two men and a woman last night entered the home of Henry Prentiss, cashier of a private bank here, and held Mr. and Mrs. Prentiss captive more than half the night while they attempted to compel him to open the bank safe. They finally shot the banker in the leg, fracturing the bone, when he attempted to escape.

While the woman bandit watched over Mrs. Prentiss the men searched the house for valuables. They found a small amount of cash and jewelry. The woman bandit then returned him home where the five parrot of an early morning breakfast prepared by the woman robber.

Separate Trials Sought for Pair

ATLANTA (Ga.) Oct. 31. (AP)—Separate trials for George Harsh and Richard Gallagher, wealthy college students who are charged with murdering two hold-up victims, will be sought by their attorneys. When the youths face a jury on November 15.

Meanwhile, Milwaukee authorities sought to link Harsh with a fatal hold-up there September 18, under the impression that Harsh was in that city and had the use of his mother's car and chauffeur at that time. The youth is the son of a late shoe manufacturer of Milwaukee. Gallagher is a member of a well-to-do Atlanta family.

AMERICA TALKS WITH AUSTRALIA

Radiophone Evaporates Distance Hazard

Newspaper Men Discuss Weather and Votes

Conversations Broadcast to General Public

SCHENECTADY (N. Y.) Oct. 31. (AP)—Australia chatted with the United States for an hour this morning through a short-wave radiophone station of the General Electric Company here.

D. M. Dow, official secretary of the Australian government in the United States, exchanged greetings with E. M. Lawton, the American Consul-General in Sydney, and a score of newspaper men of the two countries, and General Electric officials discussed the elections which are in progress in both lands and the weather.

TRANSMISSION SPOTTY

Transmission was spotty, but by repetitions it was possible to carry on sustained conversations. The conversations took place between 7 and 8 a. m., which was between 10 and 11 p. m. in Sydney. Transmission from Schenectady was through experimental station W2XAP, using a wave length of 31.4 meters, and from Sydney over the 23.5-meter wave of station 2ME.

The conversations were broadcast for a listening public by station WGTW on its regular wave of 379 meters. Harold Phelps Stokes of the New York Times, A. D. Rothman of the Australian Press, Charles Stevenson Smith of the Associated Press, T. W. Gerber of the United Press, Harry C. Shaw of the Sentinel, Keene, N. H., and Stuart Hawkins of the New York Herald-Tribune were the American newspaper men who talked. The Australian newspaper men who engaged in the conversations were W. G. Connolly of the Sydney Herald, W. J. Tuckey of the Sydney Telegraph, E. Knox of the Sydney News and Adam MacKay of the Sydney Sun.

SHOTGUN BANDITS GET LARGE PAY ROLL

PHILADELPHIA, Oct. 31. (AP)—Four robbers armed with sawed-off shotguns held up the office of the Gulf Refining Company Thirty-first street and Gray's Ferry avenue today and escaped with a pay roll of \$10,000.

Good Conduct to Win Riches

NEW YORK, Oct. 30. (Exclusive)—If Robert Randolph Ashner, 28 years of age, of Brooklyn, is not an "amoral, prodigal or imprudent son," and if he becomes a father, he will inherit the bulk of his father's \$5,000,000 estate when he reaches the age of 40, according to the terms of the will, filed today.

His father, Sigmund Ashner, a retired wholesale tobacco merchant and later an investment banker, died October 22.

A \$120,000 trust fund is established for Bertram Pink, a god-son of the deceased, who lives at Truist, Cal. The will also provides a scale of income from the estate ranging from \$400 to \$12,000 a year for the next twelve years for young Ashner, who is unmarried and not even engaged as yet.

South American Clash Rumored

RIO JANEIRO, Oct. 31. (AP)—An Agency Brazilian dispatch from Sao Paulo today said a conflict between Paraguayan and Bolivian forces occurred in Matto Grosso territory. There is no confirmation of this from any other source. The dispatch stated the conflict took place on Brazilian territory yesterday.

LONDON, Oct. 31. (AP)—Announcement was made today in the press that the Countess of Northesk, the former Jessica Brown, who divorced Lord Northesk recently in Scotland, shortly will marry Vivian Cornelius, son of Percy Cornelius, of Windlesham, Surrey.

SALE RIGHTS SOUGHT BY WESTERN PACIFIC

SAN FRANCISCO, Oct. 31. (AP)—Permission of the State Railroad Commission to sell 8000 new shares of capital stock at \$100 par value was asked by the Western Pacific Railroad in application filed today. The money, part of a capital increase of \$25,000,000, recently announced by the company, will be used for the purchase and improvement of the San Francisco-Sacramento Railroad.

FIGHT RENEWED ON PRAYER BOOK

English Groups Oppose Lang for Archbishop

LONDON, Oct. 31. (AP)—A resolution advising the King to withdraw royal assent to the appointment of the Most Reverend Cosmo Gordon Lang as Archbishop of Canterbury has been passed by the Protestant Alliance and the League of Royal Churchmen. There was only one dissenting vote when the groups passed the resolution at a joint meeting in Carlton Hall.

The resolution asserts that after royal assent had been given, Dr. Lang publicly had announced his intention of breaking the law and disregarding the expressed will of the House of Commons. It further is charged that Dr. Lang had incited the whole body of the clergy to break the law, defy the Legislature and violate the sacred promises made at their ordination by illegally using the revised Book of Common Prayer, 1552.

ATHENS HAS TO WALK

ATHENS (Greece) Oct. 31. (AP)—A strike of transport employees began today in Athens and Piræus, the public being served only by motor buses.

Funeral Rites Fixed Saturday

Funeral services for Mrs. Thomas P. Roberts, 68 years of age, of 317 South Johnston street, who died Tuesday, will be conducted at 9 a. m. Saturday at St. Dominic Church, Eagle Rock. A rosary service will take place tonight at 8 o'clock at Grace Funeral Parlor.

Mrs. Roberts had been a resident of Los Angeles for forty-three years, having come to California from Australia. She leaves her husband and four sons, Thomas G., Joseph E., Francis A. and Marcus L. Roberts.

LOS ANGELES MAKES ALL-NIGHT FLIGHT

WASHINGTON, Oct. 31. (AP)—The Navy dirigible Los Angeles made an all-night flight from the naval air station at Lakehurst, N. J., last night with Lieutenant-Commander Rosendahl in command. The dirigible left her hanger at 7:37 p. m. and returned this morning at 5:30 o'clock. This was the first flight made by Lieutenant-Commander Rosendahl aboard the ship since his return from Germany aboard the German dirigible Graf Zeppelin.

New Conception Concerning Relationship Set Forth

Depression in Agriculture Called "Growing Pains"

CHICAGO, Oct. 31. (AP)—Business is standing by to assist in the stabilization of agriculture, William Butterworth, Chicago, president of the United States Chamber of Commerce, today told the CHICAGO Association of Commerce. The throes of depression affecting some branches of farming are merely growing pains caused by the increasing efficiency and magnitude of modern production, he declared.

It is as much the concern of business as of agriculture itself, he said, "that agriculture be prosperous. An awakening to the fact that these dollars which come from the creation of agricultural wealth are new dollars has established a new conception on the part of business men and they now regard it not only as an obligation but a golden opportunity to aid in enhancing the purchasing power of these dollars."

TEAMWORK CITED

"Business recognizing and subscribing to the principles of interdependence of agriculture and other industry, has not been content to stop there. It has translated that recognition into action. Chamber of commerce and like organizations in all parts of the country are teaming with farmers to strengthen agriculture, the basic American industry."

The tendency to write a "blanket prescription" for all agricultural groups is the only issue Mr. Butterworth takes with so-called "farm relief," he declared, for the problems which affect the cranberry growers of New Jersey would have little or no bearing on the problems of farmers growing wheat for export.

INDUSTRIAL REVOLUTION

"Something has happened to agriculture and to our manufacturing," he said. "It is the working of a new industrial revolution. The truth is that many of the sore spots in American industry today are growing pains incident to an almost unbelievable increase in the efficiency of production. We cannot expect to progress as a nation without such growing pains."

ROYAL ROMANCE WRECKED

BERLIN, Oct. 31. (Reuters)—Benvenuto Hauptmann, son of Germany's leading living writer, who three months ago married Princess Schaumburg Lippe, is being divorced, the press announces. The divorce is expected November 15. No reason is published.

SPLIT RUMORED ON FRENCH DEBT

Poincare and Briand Said to
Have Disagreed

Secrecy Maintained About
Reparations Council

Pacts to Be Withheld From
Ratification Vote

(Copyright, 1928, by the Chicago Tribune)
PARIS, Oct. 31. (Exclusive)—Although the strictest secrecy has been maintained concerning the three-hour ministerial council yesterday, it is reported that the French government is determined not to present either the Berenger-Mellon or Caillaux-Churchill accords to the Chamber of Deputies or to the Senate for ratification at the present moment.

It is rumored in political circles that Premier Poincare and former Minister Briand have split on the debt question and friends of the veteran statesman point out the significant fact that the split left the meeting separately—a circumstance never before observed during their Cabinet co-operation.

Questioned as to the outcome, the Premier snapped, "I am not in the habit of informing the public about the progress of negotiations with foreign powers."

Foreign Minister Briand, exhibiting a similar crusty humor, also refused to make a statement, while other ministers are silent. The official communique was a hasty scrawl merely stating that the meeting was limited to consideration of the reparations question.

There was general surprise at the ministers' decision expressed here, as it was believed by many observers that Premier Poincare at least would present the Washington accord ratification. This was considered the logical course, due to the fact that France already is paying interest on the war debt to the United States. Also it was pointed out that payment is due next year of \$400,000,000 for United States army stocks left in France at the conclusion of the war, and this sum could be included in the total, thus reducing the interest from 5 to 3 per cent.

NEW RAIL LINE AUTHORIZED
WASHINGTON, Oct. 31. (AP)—Permission to build sixty-five miles of new line from Yankton, S. D., to Norfolk, Neb., was granted by the Yankton, Norfolk and Southern Railroad Company today by the Interstate Commerce Commission. The corporation, organized last April, will spend \$2,212,978 on its construction.

VANISHED RACE DISCOVERED

Mimbres Valley in New Mexico Yields Traces of
Ancient People Who Flourished There

MINNEAPOLIS, Oct. 31. (AP)—Evidence of the history of a race which lived in the Mimbres Valley in New Mexico centuries ago and which, as far as the evidence shows, apparently vanished about 700 years ago, was given by Dr. Albert E. Jenks, chairman of the department of anthropology at the university of Minnesota in a lecture at the Minneapolis Institute of Arts last night.

Dr. Jenks reported to members of the institute on the findings of his expedition into the Mimbres Valley last summer, which he headed. The mysterious race studied is estimated to have lived in the valley from about the time of Christ until about 700 years ago.

POTTERY FOUND
Dr. Jenks told of the findings of beautiful pieces of pottery of strange design; of stone and adobe houses, built one layer on another; of fireplaces built in the floors of houses and of peculiar burial customs.

"Nearly all of the pottery found in the excavations we made were 'kill' pieces," said Dr. Jenks. "That is, each one had a small hole broken into its bottom before being buried with a dead person."

The name kill has been given these mutilated pieces because of the belief that the people which used them broke them to kill them so that the spirit of the vessel, supposed to be the spirit of the dead, would be destroyed.

**Large Sum Paid
for Poe Poems**

BOSTON, Oct. 31. (AP)—The Boston Transcript says today that a copy of "Tamerlane," the first published work of Edgar Allan Poe, has been sold by Charles E. Goodspeed, Boston book seller, to an Indianapolis collector for a sum said to be in excess of \$20,000, the highest price ever paid for an American first edition.

It is one of six known copies of this edition. It was printed in Boston in 1837 under the title of "Tamerlane and other poems by a Bostonian."

**Women to Seek
Equality Treaty**
PARIS, Oct. 31. (AP)—Doris Stevens, American feminist, was one of the speakers at a meeting organized by the International Committee of the Women's Party and the French Women's Rights League last night which decided that active propaganda should be made for an international treaty recognizing the equality of both sexes.

GEM THEFTS GIVE \$40,000 TO BANDITS

Three Separate Attacks
Result in Rich Haul for
Chicago Gangsters

CHICAGO, Oct. 31. (AP)—Jewelry valued at more than \$40,000 was seized by armed men in three robberies last night, and three women were kidnapped for several hours in one of the hold-ups.

A masked man entered the home of Israel Warshawsky in Wilmette, North Shore suburb, and took gems valued at more than \$25,000. Mr. and Mrs. Warshawsky were made to lie face downward as the robber ransacked the house. Mrs. Warshawsky is a daughter of Morris Eller, Twentieth Ward Republican leader, now under indictment on conspiracy charges growing out of disorders on primary day.

On the far South Side four men stole \$14,000 worth of gems. George Levee's car and took the jewelry from Mrs. Levee and Mrs. William J. Leahy. The two women, with Mrs. Levee's sister, Mrs. Anna Pease of Buffalo, N. Y., were taken for a ride while the men searched them.

Two men robbed Mr. and Mrs. Calvin D. Webb in the hall of their home and took jewelry valued at \$3500.

WRITES MR. C. R. BISHOP

"Upon completion of our world tour, Mrs. Bishop and I settled at Del Mar because here we found everything we have desired in the way of recreational diversions—as well as climatic and living conditions that go to make up the ideal location for a permanent home.

"The swimming is not to be excelled in any of the watering places we visited abroad. We enjoy every country club facility within a few blocks of our home—18-hole all-grass golf course; tennis courts; horseback riding; fishing.

"We take a great deal of pleasure in our flower gardens and the climate is such that we live in them twelve months in the year."

AVALANCHE OR JUST VICTORY?

Hoover Majority's Size Only
Question, Says Rowell

Political Leader Inclines to
Landslide View

South's Electoral Votes Not
Needed for Election

WASHINGTON, Oct. 31. (Exch-
ange)—As the Presidential situation
stands today, the only question re-
maining to be decided is whether
it will be merely a Hoover victory
or a Hoover landslide. The victory
is certain and the landslide prob-
able.

This is the opinion expressed by
Chester H. Rowell of Berkeley, Cal.,
well-known "Bull Moose" leader in
1912 and now member of the emer-
gency board named by President
Coolidge to consider the railway
wage dispute affecting western lines.

Rowell was a visitor at Republi-
can national headquarters follow-
ing the completion of his work with
the board in Chicago.

INSIDE VIEWPOINT
Mr. Rowell explained that while
he has not been active in politics
for the past few months because of
his work in the railway wage dis-
pute, he has followed the situation
closely from his point of vantage
in the Middle West. He said that
he does not take seriously the
view of Gov. Smith by Senator
Harris of Nebraska.

"It may have some effect in Sen-
ator Harris' immediate district, but
beyond that, nothing much will
come of it," Mr. Rowell states.

The only decision to be made
next Tuesday is between a Hoover
victory and a Hoover landslide.
Mr. Rowell told Chairman Work.

"Republican victory is certain, a
landslide is probable."
"There is strong likelihood that
the solid South will be broken at
the coming election," Mr. Rowell
continued. "There will be a large
and respectable minority vote in
every Southern State, indicating
the widespread revolt against Smith."

SOUTH NOT NEEDED
"The outcome in the South will
add anything to Hoover's elec-
toral vote that is needed, for Ho-
over will have enough electoral votes
to win at the worst, and he may
have enough for a landslide, even
without the South."

As to California, the result is
certain to be a large majority for
Hoover," said Mr. Rowell.

Mr. Rowell was accompanied on
his visit to headquarters by Byron
Fitts, Treasurer of the Governor
of California and District Attorney-
elect of Los Angeles county. Lieut.-
Gov. Fitts has just completed a spe-
cial tour of Oregon, Washing-
ton and Texas and will return to
California within the next few days
to begin his new work there.

NORTHWEST HOOVERS
"Oregon and Washington are
certain to be in the Hoover column
and surface indications are that
Texas will give the Republican
nominee, if not a
majority," said Lieut.-Gov. Fitts.

"I am for Herbert Hoover be-
cause I feel him to be the more
qualified and more man for the of-
fice," said John A. Wedde of De-
troit in a statement issued through
the Republican National Commit-
tee today.

Mr. Wedde, publisher of the Fe-
lish Daily Record, one of the most
influential American papers in the
Polish language, was associated with
Mr. Hoover in European relief work
and later was an official in the De-
partment of Commerce under Mr. Hoover.

BABE RUTH TRIES ROLE OF NURSE ON TRAIN

SIoux CITY (Iowa) Oct. 31. (P)
Babe Ruth, home-run king of base-
ball, made a futile attempt to re-
vive Charles H. Tule, Sioux City
salesman, on a train near Sloan,
Iowa, last night. Tule was stricken
with a hemorrhage and died despite
an hour's attempt by Ruth to re-
vive him. Ruth was on his way to
Denver.

TORCHLIGHT PARADE WILL PRECEDE RALLY

A torchlight parade, leaving York
Boulevard and Pasadena avenue at
7 p.m., will precede the Hoover rally
to be held Friday evening in the
Franklin High School, Avenue 54
and Irvington Place, according to
announcement by the Fourteenth
District Republican Club, in charge.
The parade will continue through
the entire Fourteenth District, wind-
ing up at the schoolhouse about 8
o'clock, when the program will be-
gin, with Charles McDowell, chair-
man.

Ex-Gov. Stephens and Representa-
tive Evans will be the speakers at
the rally, which will include a dis-
cussion of campaign personalities
and issues, with motion pictures
and musical entertainment. More
than 2000 persons are expected to
be present.

WESTLAKE DISTRICT WILL VOTE FOR HOOPER

A large, solid Hoover vote in the
Westlake district is promised by
the Westlake Republican Club,
based upon the most enthusiastic
Republican rally held in the dis-
trict thus far, when more than 600
met last night, listened to G.O.P.
speakers and cheered the party
nominee.

State Senator Allen lauded Her-
bert Hoover as the best-qualified
man for the Presidency and de-
clared that the protective tariff is
the mainstay of prosperity in the
United States and particularly in
California. His sentiments were
seconded by former City Council-
man Gregory.

Members of the club, which was
organized in 1926, pledged them-
selves to vote early next Tuesday
and to do all in their power to ob-
tain at least a 100 per cent vote in
the district at possible.

MERRIAM SEES HUGE MAJORITY

Chairman Predicts Hoover
State Lead 310,000

Republican Rally Hits New
Peak of Enthusiasm

Presidential Electors in
Seats of Honor

Reaching a crescendo of enthu-
siasm probably never before equalled
in a Southern California political
campaign, 400 leaders and workers
for Herbert Hoover's Presidential
campaign applauded, pounded ta-
bles and cheered yesterday when
Republican State Chairman Frank
F. Merriam declared that Hoover
will carry the State by a minimum
of 310,000 majority.

Crowding the Alexandria ballroom
to the doors the Hoover supporters
headed Joseph Scott, Representative
Craig, Representative Evans, Col.
William Eric Fowler, county chair-
man; Mr. Merriam and others de-
clared that Tuesday's election re-
sult in a landslide for the Republi-
can Presidential candidate, not
only in California but throughout
the nation.

ELECTORS HONORED

Republican Presidential electors,
including Mrs. Harriet W. Works
of Los Angeles, Fred H. Schauer
of Santa Monica, R. T. Williams
of Santa Ana, James F. Collins
of Long Beach and A. W. McPherson
of Santa Monica, were honor guests
at the luncheon.

Ex-Senator Flint presided at the
luncheon and with C. G. Teague
of Santa Paula and Mendel Silberberg
of Los Angeles, Southern California
Hoover campaign directors, intro-
duced the speakers.

The climax of the meeting was
reached with the address of Mr.
Scott, who returned this week from
a speaking tour of the Eastern
States.

Scott received an ovation when
introduced by Silberberg as "the
man who has fought the best and
greatest battle of the man who
have gone from California in be-
half of the Republican party cam-
paign."

"My job was to go up to the gang
in Massachusetts and other States
and tell them that religion has
no place in this campaign,"
said Scott, who is one of the fore-
most Catholic laymen in the United
States.

HOOPER ATTACKED

He said that the Republican
party, born out of the philosophy
of Abraham Lincoln, has never per-
mitted intolerance or bigotry to
raise their heads without being the
first to stand against them.

"I told those Republicans back
there that it is their duty to get
back into the Republican party,
where they belong," said Scott. "I
pointed out that California is be-
hind in the race for the Presidency
and joined hands with Massachusetts
in putting Calvin Coolidge in the
White House and now California is
adding Massachusetts to the list of
States across the continent and help
us put Herbert Hoover in the Presi-
dent's chair."

Representative Evans described
campaign conditions in Kentucky,
Tennessee, Alabama and North
Carolina, declaring that Tuesday
will prove that the "Solid South"
no longer exists. He said he is as
positive Hoover will carry Kentucky
as he is he will carry California,
and that Hoover is also "well out
in front" in Tennessee.

Both Scott and Evans, however,
stressed the fact that the campaign
throughout the East and South
being waged with a fierceness ab-
sent from the western campaign.

Representative Craig predicted
that next Tuesday will see Hoover
elected while "the lamp post is still
on Park Row," referring to Gov.
Smith's past declaration that he
would rather be a Park Row lamp
post than Governor of California.

Representative Evans will be the
speakers at the rally, which will include a dis-
cussion of campaign personalities
and issues, with motion pictures
and musical entertainment. More
than 2000 persons are expected to
be present.

WESTLAKE DISTRICT WILL VOTE FOR HOOPER

A large, solid Hoover vote in the
Westlake district is promised by
the Westlake Republican Club,
based upon the most enthusiastic
Republican rally held in the dis-
trict thus far, when more than 600

selves to vote early next Tuesday
and to do all in their power to ob-
tain at least a 100 per cent vote in
the district at possible.

HOOPER SUPPORTERS URGED TO SWELL VOTE

Hoover supporters in Los Angeles
county should make it their busi-
ness next Tuesday not only to vote
themselves but to see that every
Hoover vote gets to the polls.
Col. William Eric Fowler, Republi-
can county chairman, urged yes-
terday in calling attention to the
fact that the Los Angeles county
vote will be a big factor in Cali-
fornia.

Col. Fowler warned that with the
registration so heavily in favor of
the Republicans there is danger of
many Hoover supporters neglecting
to vote because they think Hoovers
will carry the county and the State
without trouble. The only safe way
for Hoover adherents to follow on
election day is to vote and to help
get every other Hoover vote to the
polls, he said.

BEAUTYREST Mattress

The BEAUTYREST Mattress contains 837
small resilient coil springs, each enclosed in a
cloth pocket, which eliminates all possibility of
noise and permits each coil to act independ-
ently. The end row of coils on all four sides
is anchored to the side wall, producing a
smooth, even edge that will not sag or break down.
Covering this network of coil springs are thick lay-
ers of clean, new cotton felt. Eight ventilators serve
to keep the interior fresh and clean at all times.

BEAUTYREST is packed and sealed in a dust-proof
carton and weighs approximately 90 pounds in the
4.6 size. Also furnished in 3.3, or twin size.

BEAUTYREST may be had in your choice of four
damask coverings—Orchid, Blue, Green and Rose.

You'll never get up with that "tired feeling" after a restful night's sleep on BEAUTYREST.

AMPICO

Nothing can quite replace the Ampico for musical enjoyment. Ask Rudolph Friml to play... or Vincent Lopez, ask any one of the hundreds of great pianists to entertain your guests and he complies. Either in person or on the Ampico... the performance is the same. There is not an occasion where the Ampico is not capable of furnishing the music... either as an obtrusive background, or as the principle performer. It is a constant source of pleasure to know that your home is graced with such an instrument.

Nueva Línea Aeropostal en México

EL PASO, Octubre 31.—El Continental, diario de esta, ha recibido noticia de que, antes de fin de año, se inaugurará en México otra línea aérea postal y de viajeros, que ligará la Ciudad de Monterrey, capital del Estado de Nuevo León, con la de Matamoros, importante puerto de Tamaulipas. Habrá escalas en Torreón, Durango y Culiacán. Muevas Compañías Dos Caballeros Matamoros.

EL PASO, Octubre 31.—Dice hoy el Continental que los cabecillas rebeldes Carrancho y Flores fueron muertos ayer en un furioso ataque que dieron con sus gavillas contra la ciudad de Alamo (Jalisco). Dura el combate más de una hora, y de él salieron triunfantes las tropas del gobierno, que mataron varios rebeldes y capturaron buen número de prisioneros.

Se Disputa el Jurado de los Matadores de Oregón

CIUDAD DE MEJICO, Octubre 31.—A fin de tener dos días para elegir jurado, el juez Mendonza ha pospuesto hoy hasta el viernes la vista de la causa de José León Toral y la Madre Concepción, acusados del asesinato del general Obregón. Hoy fueron inculcados los presuntos jurados, y para mañana se procederá a la elección de los definitivos.

Estos días Glendora Empieza la Cacería en Pittsburgh

PITTSBURGH, Octubre 31.—Hoy hizo el fiscal federal Meyer cargos concretos relacionados con la acusación formulada por el gobierno de que existe aquí una enorme asociación para la venta clandestina de licor, en la que se hallan complicados varios funcionarios públicos. Meyer ha denunciado que hay más de 400 sitios de venta de licor en varias partes de la ciudad, regimados por la policía y los políticos. Son cantinas, clubs,

dulcerías y tiendas de otras clases.

En el barrio sur, según Meyer, Francis Kirley, presidente de cuartel, y John J. McArdle, inspector de policía, resuiven al hay que cerrar una cantina o permitir que ésta abierta. En el barrio del "strip", John W. Orie, magistrado de policía, es hermano Stanley, y Luke Sullivan, miembro de la legislatura, libraban órdenes para la entrega de licor. Afirma Meyer que en el barrio norte, Thomas Orlife y Samuel J. Grenet, otro diputado del Estado, estaban encargados de la venta de licor en esa parte de la ciudad.

Algunos portadores fueron presentados por Meyer en respuesta a la orden que dio el juez federal Orlife de que se apartaran informes más concretos sobre las inculpaciones que se piden contra 167 políticos, miembros de la policía y presuntos rackets y "bootleggers". Se paga una Fuerte Suma por las Fombras de Fox

BOSTON, Octubre 31.—Dice hoy el "Boston Transcript" que un ejemplar de "The Atlantic", la primera obra de Edgar Allan Poe que se publicó, ha sido vendida por Charles E. Goodspeed, librero de Boston, a un coleccionista de la India en una suma de \$20,000. En el precio mayor que ha llegado a pagarse por una primera edición norteamericana.

El ejemplar vendido es uno de los más que se conocen de dicha edición. Salí de las prensas en Boston el año de 1877 bajo el título de "Tales and other poems by a Bostonian".

Así que Atrapada a una Criseta

Al ver que su hija Carlota, de 3 años de edad, se había escapado por un automóvil, la señora Bernard Samuels, habitante en la calle Quince Costa, 2504, tiro un terrible ataque de histeria, y fue momentáneamente atendida en la Casa de Socorro. La criatura se saltó de la mano de su mamá en los momentos en que cruzaba la calle en la esquina de la Octava y Broadway, y fue alcanzada por el automóvil que conducía R. A. Gubinska, que vive en la calle Veinte Nueve, 601. La criatura no recibió daño alguno; pero la madre sufrió un espasmo.

Resiste en Maridó 9700 para Concederle la Suma de \$100,000

En fallo que dictó ayer el juez Crawford, del juzgado superior, se adjudicó \$7500 a T. R. Walsh, que le pagará George Austin, dependiente de una droguería de Riverside. El juicio, cuya vista duró tres días, fue entablado por Walsh contra Austin por embargamiento del salario de la señora Audrey E. Walsh.

Durante las audiencias se leyeron, para que figuraran en los autos, arcaicas epístolas dirigidas por Austin a la señora Walsh. Walsh asegura que la fue robado el amor de su mujer cuando él se hallaba confinado en un sanatorio del este. La señora Walsh y Austin, en cambio, aseguran que, al alguna vez sintió la primera, cuando se vio en la calle, todo él se había evaporado ya antes de que Austin se presentara en escena.

Realizó exitosa audición para la próxima semana en un juicio de divorcio que ha interpuesto la señora Walsh. En su querrela, formula la demandante el cargo de abandono.

CHARGES OF LIQUOR RING MADE CLEAR

Politicians and Officials
in Pittsburgh Specifically
Named by Government

PITTSBURGH, Oct. 31. (AP)—Specific assertions in the government's contention that a gigantic liquor ring involving public officials exists here were made today by U. S. Atty. Meyer, in filing bills of particulars to indictments returned last June by a Federal grand jury.

Meyer charged more than 400 saloons, clubs, confectioneries and other places in various parts of the city were operated under police and political control.

On the South Side, Meyer said Francis Kirley, ward chairman, and John J. McArdle, police inspector, determined whether saloons should be closed or permitted to operate. In the "strip" district, the attorney charged John W. Orie, police magistrate, his brother, Stanley, and Luke Sullivan, member of the State Legislature, issued orders for delivery of liquor. Thomas Orlife and Samuel J. Grenet, another member of the State Legislature, had charge of the sale of liquor on the North Side, Meyer said.

The bills of particulars were filed in response to an order by Federal Judge Gibson that more specific information be presented in support of the indictments which named 167 politicians, police and asserted racketeers and bootleggers. A number of those indicted had filed action to quash the indictments, contending they were "vague."

AUTO TOURIST FLOOD IN STATE MOUNTS HIGH DURING SUMMER

SACRAMENTO, Oct. 31. (Exchange)—California remains the motor ground of the nation, according to statistics for the 1928 tourist season made public today by Chief Stock of the State Division of Motor Vehicles.

By actual count taken at six of the border stations that are maintained by the division, 68,286 out-of-state cars passed into California during the two months of the summer season.

Taking an average of three per-

sons to the car, said Stock, "would give a total of 204,738 persons who visited the State during this short period. Assuming that the visitors spent an average of \$100 per car, means these tourists left at least \$6,828,000 in California."

The stations are maintained at Myers, Donner Lake, Dunsmuir and Arcata, in the north, and at Daguerre and Yuma in the south, and are particularly helpful in tracing stolen cars. Every State in the Union was represented in the count and many foreign countries.

Approximately \$100,000,000, with the work scheduled for completion in seven or eight years.

The project covers the passenger and freight service on 325 miles of line and 1500 miles of track, beginning at Hell Gate Bridge, New York, where connection is made with New England.

It will extend west and south to Wilmington, west from Philadelphia on the main line to the direction of Harrisburg as far as Allentown, Pa., and on the low-grade freight line which join at Columbia, Pa., and connect New York, Philadelphia and Wilmington with the West.

The Pennsylvania on completion of this work will have the greatest electrified track mileage in the world, President Atterbury said, and for an electrically operated line its freight and passenger business will be the largest.

JUDGE DEFINES WAR CLAIM ACT

Arbitrator Says Enemy Assets Must be Returned

Congress Held Favorable to Fair Compensation

Amount of Reimbursement Given Limitation

WASHINGTON, Oct. 31. (P)—Judge Parker, arbitrator under the Settlement of War Claims Act, held in his first ruling today that, although Congress had power to confiscate enemy property as a war measure, it had adopted "a legislative policy providing for the ultimate return of all enemy property or the proceeds of the sale thereof and for the payment of fair compensation for such enemy property as was taken or used by the United States itself during the world war."

Rules and principles were announced by Judge Parker to govern the preparation, presentation and decision of claims based on the approximately 12,000 enemy-owned patents taken over by the United States during the war. He finally denied the right of ex-propriation of the patents under the act for licensing, under more than 600 patents, acquired by the United States.

It is noted that these patents had not been acquired from the Alien Property Custodian, but from the Chemical Foundation, Inc., which had previously purchased the patents from the custodian at private sale.

With respect to the patents under which licensees were received by the United States from the Chemical Foundation, the arbitrator held that under the Treaty of Berlin of 1901, the German former owners of patents

PRINCE TO DON IRISH COLORS

Wales Will Wear Tricolor of Free State in Race at Town in Africa

LONDON, Oct. 31. (P)—The Daily Express said today that the Prince of Wales has promised to wear the Irish Free State tricolor in a horse race at El Dorat, Tanganyika, Africa.

El Dorat is a predominantly Irish settlement. One of the citizens, Thomas O'Shea, who was a leading Sinn Féin in Ireland in 1915, asked the Prince if he would object to wearing the tricolor and tricolor in the race.

"Not at all; I will be delighted," the Prince replied. O'Shea's little daughter will present the colors to the Prince.

The Prince of Wales, who was purchased from the custodian by the Chemical Foundation in 1918, are limited ultimately to receiving through the Alien Property Custodian the amount paid by the Foundation to the custodian and from the arbitrator an award of fair compensation for the use, if any, made by or for the United States itself, embraced in the law of 1918.

We like to think of this Reo in terms of craftsmanship

Reo has never overdeveloped one feature at the expense of others.

There's a craftsman's instinct behind it that looks to balance of design—that insists that an obvious superiority never quite makes up for an obvious weakness.....

And yet you can match the Reo Flying Cloud for speed against practically any car on the road—for smooth, velvety riding—for flexibility and easy handling—for quick starting and quicker stopping—for its ability to hug a dirt road no matter how fast a clip you take it at—and its ability to put a good stiff hill behind you without any strain.

The tradition of that fine old clipper ship of the 50's—the Flying Cloud—comes down to us as the supreme example of American craftsmanship. We like to think it is the same instinct for craftsmanship which makes possible the Reo Flying Cloud.

COPPER SCORPION FRESH ADVANCE

Price Boosts of Quarter Made in Week

Another Increase Due to Early Data

Lead Active and Under Zinc Continues Dull

BY CHARLES F. WILSON

The copper market has been again with two quarters ago. The price of copper has been in the last week and a half, and it is now at a level of 17.25 cents per pound. This is a significant advance from the 16.50 cents per pound of a few weeks ago. The advance is due to a combination of factors, including a shortage of copper in the market and a strong demand for the metal.

The copper market has been in a state of flux since the beginning of the year. The price of copper has been volatile, with a general upward trend. The current advance is a reflection of the market's response to the early data for the 1928 crop of the county of orange.

COPPER SHORTAGE LAGS
Copper has been more plentiful than it has been for some time. The market has been covered by a large supply of copper, and the price has been relatively stable. However, the current advance is a sign that the market is beginning to tighten again.

COPPER PRODUCTION LAGS
The world production of copper has been relatively stable in recent years. However, the current advance in the price of copper is a sign that the market is beginning to tighten again.

CONSUMPTION HEAVY
Copper consumption has been relatively stable in recent years. However, the current advance in the price of copper is a sign that the market is beginning to tighten again.

AN INTERESTING POINT IN THE
The situation in the copper market is a reflection of the market's response to the early data for the 1928 crop of the county of orange.

London Market Tone Strong

LONDON, Oct. 31. (Exclusive)—The stock market was stronger today with foreign exchange active. The market was better, with the exception of talking machine issues, which were in supply, especially Victor and Columbia Graphophones. Tobacco was in demand; wireless issue strong; artificial silk weaker; fertilizer, better; oil mixed; mines lower; nickel recovered; but Dupont and other rubber low.

The gilt-edged division was quiet; foreign bonds, however, were active; Argentine rail, in good demand.

STOCK AND BOND SALE MARKS SET

October Transactions on
Curb and Exchange at
Record Peak

Sales of stocks and bonds on the Los Angeles Stock and Curb exchange for the month just closed marked a new high record in the history of both markets, according to figures issued yesterday.

Value of all transactions on the Los Angeles Stock Exchange aggregated \$121,113,000, an increase of \$27,197,100 over the preceding month and a gain of \$23,628,288 over May, last, the previous record. All records for volume as well as value of the trading were scored in addition to new peaks for a single day's trading. The month's turnover reached a total of \$414,511,183.

Value of stock and bonds traded for the year to date stands at \$777,742,200. This is an increase of \$48,470,000 over the \$729,272,200 reported for the entire year 1927.

A marked increase was made in the value of trading on the Los Angeles Curb Exchange for October, reaching a total of \$88,170,000. This is a gain of \$13,340,000 or more than 130 per cent over the value of trading for the preceding month, which was also the previous record. The turnover aggregated \$370,183 shares.

North American Utility Profits on Higher Plane

Consolidated net income of the North American Company and subsidiaries for the twelve months ended September 30, last, after all charges including preferred dividends, aggregated \$20,000,000, according to the annual statement. This compares with \$16,000,000 reported for the corresponding period last year, an increase of \$4,000,000, or more than 25 per cent.

Net earnings are equal to \$4.00 per share on the average number of shares outstanding during the twelve months, compared with \$3.20 per share in the same period last year.

Gross earnings were \$19,000,000. Operating expenses including maintenance, taxes and all reserves except depreciation, were \$7,000,000, and net income from operations was \$12,000,000.

The North American Company controls and operates the San Joaquin Light and Power Company, both of which serve a good portion of the public utility in Northern and Central California.

Giannini Plans Gain Approval

Individual shareholders, representing controlling ownership of Bank of Italy National Trust and Savings Association and Bancitely Corporation stocks, have expressed their approval of the plan for an exchange of their present holdings for stock in the Trans-America Corporation, the head office announced yesterday.

This means, it was stated, that the stock of the Bank of Italy, the Bancitely Corporation and the Trans-America Corporation will be transferred to the Trans-America Corporation, which will become the dominating factor in the management of the entire group. The stock of the Bank of Italy and the Bancitely Corporation will later be withdrawn from the various exchanges and Trans-America Corporation will replace them, so that it is generally expected that it will be given a wider listing.

NEW YORK, Oct. 31. (AP)—Carib Syndicate, Ltd., of New York directors voted today to distribute to stockholders \$25,000 shares of Cohn Oil Corporation not par common stock on a share-for-share basis to holders of record November 10.

This distribution represents substantially the entire interest of Carib Syndicate in Cohn Oil Corporation.

SMALL MARKETERS GAINING

Gasoline Figures Show Losses of Major Companies
Due to Aggressive Drive of Little Fellows

BY EARLE E. CROWE

For the investors and speculators in oil shares some interesting figures are disclosed in an analysis of the gasoline tax figures published yesterday. Aside from the noticeable decline in the rate of increase in consumption, the most significant development is the surprising expansion in the gasoline of the smaller marketers. The trend has been in this direction since the first quarter of the year.

Standard Oil of California retained its comfortable margin in its position as the leading marketer of gasoline in California, although this company, like most of its major competitors, lost gasoline in the third quarter in comparison with the same period of last year. Of the three leading companies, Union was the only one to show an increase, and the gain only amounted to 3 per cent.

Motor Chief Stirs Hope of Melon Cutting

NEW YORK, Oct. 31. (AP)—Alfred P. Sloan, Jr., president of the General Motors Corporation, in his return from Europe today said stockholders would receive "something of a pleasant surprise" at the directors' meeting November 1. He refused to comment further on what action the directors would take, but Wall Street expects a melon in the form of a stock dividend.

Mr. Sloan is expected to announce a plan to cut the price of the stock by 10 per cent, a move which would be a significant step in the reduction of the company's debt. The plan would be a stock dividend of 10 per cent, which would be a significant step in the reduction of the company's debt.

October Foreign Trade
Total Shows Gain Over
1927 of 47 Per Cent

Rapid strides made in the development of foreign trade continue to be reflected in the monthly statement of traffic through the Los Angeles Harbor. Shipments to foreign countries during October last year were 47 per cent, according to the report issued yesterday from the Marine Exchange of the Los Angeles Chamber of Commerce.

Foreign shipments for the month totaled 650,100 tons, valued at \$12,100,000, as against 510,000 tons valued at \$10,100,000 in October, 1927, an increase of 23.5 per cent in volume and a gain in value of 19.8 per cent.

Eaton Axle to Offer Rights

CLEVELAND, Oct. 31. (Exclusive)—Stockholders of the Eaton Axle and Spring Company will be offered the right to subscribe for one additional share of \$10 par value common stock at \$8 a share for each share owned. The plan is to be used in part to finance the addition to its Cleveland plant, and also for working capital made necessary by its rapidly expanding business, it was announced today.

The rights will be given to stockholders of record at the close of business on November 15, and will expire December 1. One-half of the subscription price must be paid on or before November 15, and the remainder by February 1.

International Stockholders
Called to Vote on
Proposition

CHICAGO, Oct. 31. (Exclusive)—Directors of the International Harvester Company today recommended a change in the common stock of \$100 par value to 20 par value on the basis of four shares of the old, according to a statement made public by Alexander Legge, president.

Stockholders will vote December 11 on the proposed increase of authorized common stock to 6,000,000 shares of 20 par value.

The new stock will be placed on \$250 annual dividend basis provided the split-up is authorized, Mr. Legge stated. This is equivalent to the company's present capitalization. It is estimated that approximately 4,410,000 new shares will be required, leaving 1,590,000 shares for future use.

TICKET SYSTEM FOR FLORIDA ANNOUNCED

Western Union Telegraph Company will inaugurate in Florida about January 2, the new high-speed ticket-printer carrying quotations up to the latest market prices of 200,000 shares, there being 270,000 shares now outstanding.

On the supply side of the gasoline situation the statistics are more favorable. At the end of September, stocks of gasoline on the Pacific Coast totaled 11,251,000 gallons, a decrease of 1,720,700 from the total a year ago. Of still further significance, stocks of refinable crudes dropped 5,500,000 barrels to 11,700,000 barrels.

RAIL SYSTEM MAPS FIELD

Set Compiled for Van Sweringen Brothers Declared
Most Complete in Existence

BY JOHN F. SINCLAIR

(Copyright, 1933, by North American Newspaper Alliance.)

NEW YORK, Oct. 31.—Probably the most set of railroad maps in existence is owned by the Van Sweringen brothers of Cleveland. They have spent a fortune in getting these extensive, exclusive and detailed maps together.

Their map methods are purely scientific. They survey and exhaust every line of industrial possibility in the territory through which their roads operate.

Passenger traffic over railroads has been steadily decreasing in the past years. The hope of these men for the future lies in freight. The more the better. No one has studied such possibilities more thoroughly than the Van Sweringen brothers.

Take coal for instance. Before the Van Sweringens bought control of the Buffalo, Rochester and Pittsburgh Railroad, Michael Gallagher of Cleveland must have looked over the bituminous background. Gallagher is the head coal man in the widely ramifying Van Sweringen organization, but since he has been chairman of the operating organization in the old central competitive field, and as leader of the producers in several hard-fought coal strikes, Gallagher's name would get on the front page. He had retired as chairman of the operation some time before he went with the Van Sweringens, and spent months ago the central field broke up.

Gallagher was reared in a company house in the Eastern Ohio coal district. His father was an Englishman, and Gallagher followed him into the mines. In the new-making boom of the late 1800s, Gallagher took to the road and sold machines up and down Eastern Ohio. Money made at that faster than mining, but his back into the mines, but as an operator. He had had a hand in several large coal properties in the Eastern Ohio, or No. 1, said Gallagher.

When Theodore Gary of Kansas City was made head of the road-building department of Missouri, he pioneered what was then a comparatively new idea in road building.

He decided that it was a mistake for an aerial highway connecting Kansas City with St. Louis to go through all the little towns. It should go through St. Louis. It was an unnecessary burden on the traveler, and it did not take the time to go through all the little towns. It was a mistake, he decided, to what was then believed.

So he went ahead, routed the highway in a direct off-cut, in a straight line, and completed it in a matter of months. It was a mistake, he decided, to what was then believed.

Combining the Advantages of Short and Long Term Bonds

An unusual opportunity to combine the marketability and stable value of short-term securities, and the appreciation possibilities of long-term bonds selling at a considerable discount, is offered by our recent issue of PROVINCE OF UPPER AUSTRIA External Secured 6 1/2% Gold Notes, due July 1, 1930, priced at market and interest, to yield over 7.60%.

These notes are the direct obligation of the Province and are directly secured by deposit of Upper Austria External Secured Sinking Fund 6 1/2% and 7% Bonds, equalling \$1,570 per \$1,000 note.

These notes will be exchangeable at the option of the holder, on or before April 30, 1930, for the 6 1/2% Secured Gold Bonds of the Province due in 1937, at prices ranging from 93 to 95 1/4, the difference between the exchange price and the principal amount of the note to be paid by the Province in cash.

In view of the rich natural resources, balanced budget, and steadily increasing revenues of the Province, we believe the issue constitutes a sound investment, yielding an attractive return today and offering decidedly attractive appreciation possibilities for the future.

Circular descriptive of the Province of Upper Austria and the details of this issue will be gladly furnished on request. Call, phone or write.

A Reputation That Is Traditional

It is the ancient rule of life to judge things on their records. Before we accept a proposition or take any stock in it, intuitively our mental reaction is to inquire what has happened in the past in order to satisfy ourselves with what to expect in the future.

Today more than ever the investor asks, "What is the record of the house that solicits my account?"

contrast to only about \$150,000,000 last year at this time. Bankers interpreted this as indicating that the Federal Reserve brokers' loan figures tomorrow will show a substantial reduction. Another indication of this is that banks have been paying off their indebtedness at the Federal Reserve.

One of the most important developments enhancing the industrial outlook was the announcement that the Pennsylvania Railroad will shortly begin service between New York and Wilmington, Del. This is the most extensive railway electrification project ever undertaken and will involve the expenditure of about \$100,000,000 during the next few years.

STEEL OUTLOOK BRIGHT

The steel trade reviews were again highly favorable, reporting impending purchases for railroad equipment offsetting the seasonal decline in automotive activity. The Iron Age composite price for finished steel closed at the highest figure since June, 1927, and the pig iron composite closed \$18 a ton for the first time in a year.

Steel shares were again generally heavy, however. United States Steel responded slightly to the excellent third-quarter earnings report announced after the close of the market yesterday, then encountered selling pressure. Lantham was an exception, making an extreme gain of 1-4 points on announcement of a pooling of patents with the Krupp interests of Germany.

A strong feature of the session was American Type Foundry, which soared more than 10 points to a new high at 127 1/2 on announcement that earnings for the year ending August 31 were at the rate of \$14.13 per share, in contrast to \$9.28 per share the previous year. American Radiator closed 6 points to a new peak at 170 1-8, and International Nickel forged ahead 4 points to a new high price at 191. Commercial Investment Trust was again in demand, registering a new record price in a gain of more than 2 points, and Holland Furnace and Life Savers also touched a new top.

COFFERS STRONG

The copper rallied, Anaconda touching a new high at \$27 1/2, while Greene Cananea and Kennecott made gains of about 2 points. Cerro de Pasco made a 3-point gain, then lost it.

Adams Express was a spectacular performer, soaring 20 points and closing 12 points up, while American Express surged ahead 10 points. Warner Brothers shares were again strong on reports of good current earnings, pushing up 4 and 7 points while Kolster Radio touched a new top at \$11 1-4, up 3 points. Radio Corporation also advanced, then fell back for a net loss of 4 1/2 points.

In the motors, Briggs rallied 3 points but Chrysler lost 5 points, later gaining 2 1/2 and Motor Products lost 6 points. Jordan sold as low as 11 1-8, in contrast to its record high at 12 1/2.

Du Pont dropped 12 points at one time but reduced its loss to 7 points. A. M. Ryan, Delaware and Hudson, General Electric, International Rayon, Jewett, Macy & Co., F. G. Shattuck, Otis Elevator, and White Rock were among shares declining from 2 to 6 points. Victor Talking Machine dropped 16 points and closed the points down. Barnard made 10 points and closed 5 1/2 points, an extreme loss of about 3 points, which was reduced to 1 1-8.

The commodity markets were steady. Wheat was firmer on commission house buying and covering and cotton improved on reports of sold rates in the South.

Foreign exchange was generally steady, sterling cables hovering near the gold import mark with the pound at \$2,000,000 from London was announced. Yen again declined, touching 66.60 cents, down 30 points.

what is today one of the ideal highways of the Union.

Albert W. Atwood, American writer, said recently with reference to the same problem:

"The present-day automobile trip of 200 or 300 miles instead of thirty years or so as in the old horse days; and it is self-evident that provision must be made for not stopping at any given point in spite of the increasing impression that there is something in forcing a mass of through travelers, who do not need to stop, into an already overcrowded center."

Our ideal highways of the future will be built primarily for the convenience and comfort of the traveler.

SKY PAIR DODGE PRISON

Suspends Sentence to Protect Investors

Knowledge of Mine Furnished by Stockholders

Fined \$5000 and Put Under Court Control

John Schauer would have sent the Langmeyer and Joseph Langmeyer to the penitentiary for violation of the blue sky law only if the fact that they alone possessed the technical information necessary to develop the Four Aces mining company can save their investors.

Langmeyer and Garity recently were found guilty of evading the blue sky law by turning over stock in the company to their wives, and then selling it to an unsuspecting, owned stockholder before Judge Schauer sentenced them. He imposed a fine of \$5000 each, suspended the sentence for one to ten years, and put the company under the control of the court.

The only other witness called to testify was Clara Woolwine, former City Attorney for Culver City. It is understood that Woolwine was questioned only regarding routine matters that occurred during the time he held office.

After questioning Woolwine the grand jury adjourned until tomorrow, when it will resume its investigation and question other witnesses.

The investigation was started shortly after McLeod returned his auditors' report which indicated that the city expenditures in Culver City exceeded the revenues by approximately 20 per cent. The report also pointed out scores of

BUSINESS AT PORT GAINS

Harbor commerce for the month of September totaled 1,866,112 tons, valued at \$81,686,802, an increase of \$11,776,164 over the business for September of 1927, according to the official monthly report of the Harbor Commissioners, issued yesterday.

Of this total, \$45,589,518 was inbound commerce and \$36,097,284 was outbound commerce, according to the report, showing that the Southland's development is expanding so that imports exceed exports, despite heavy outbound oil shipments. A considerable portion of

Grand Jury Gets Report on Alleged Tangle Arising During Houck Regime

The background of the alleged Culver City financial muddle was told to the Los Angeles county grand jury yesterday by A. S. McLeod, auditor, whose report on the confused books of the municipality recently caused the pending inquiry into the Mayor Houck regime.

The only other witness called to testify was Clara Woolwine, former City Attorney for Culver City. It is understood that Woolwine was questioned only regarding routine matters that occurred during the time he held office.

After questioning Woolwine the grand jury adjourned until tomorrow, when it will resume its investigation and question other witnesses.

AUTO SALON TO FEATURE NATION VOTE

Election Returns Given by Special Wire Obtained for Opening Night

Election returns, received over a specially leased wire, will be given Tuesday evening at the fifth annual Automobile Salon at the Biltmore Hotel.

The exhibit, which will be free, is to be given by the Los Angeles Motor Car Dealers' Association in the Sala de Oro of the new addition of the hotel. It will continue through Friday evening.

Burt Roberts, secretary of the association and manager of the salon, says that the latest output of eastern factories, demonstrating the ultimate in engineering development and the newest innovations in appointments, body lines and color effects will be shown.

Continuous entertainment will be furnished throughout each afternoon and evening by orchestras, led by Adolph Tandler and Louise Kline.

Stiles to include all price allowances will be shown in the nearest of all models. Mr. Roberts announced, from the town cars with gold and enamel fittings, through limousines, sedans, coaches, landaulets, sport phaetons and roadsters.

Many new mechanical features will be shown including improved devices for motors, larger carburetors, more spacious seats giving new angles that provide greater riding ease, improved manifolds and other innovations that make for balance, smoothness, silence, power and power.

School Children Will Compete in Live-Stock Week

Hundreds of boys and girls from the agricultural departments of schools and colleges of the Western States are competing for cash prizes, medals, trophies and other honors during the third annual Christmas Live-Stock Week to be held at the Los Angeles Union Stock Yards December 2 to 8, according to J. A. McNaughton, chairman of the executive committee.

Live-stock judging teams, representing the cream of the youths in the vocational departments of schools all over California, will compete for three silver trophies on the closing day. Other students will exhibit fat steers, baby beef, hogs and sheep during the week and will be awarded cash prizes. In addition, merchandise certificates are offered by Los Angeles merchants including Bullock's, Silverwood's, Wetherby-Kayser and Huntington Park merchants.

PATIENT EXPECTED TO MAKE RECOVERY

J. Darile Lloyd

J. Darile Lloyd, treasurer of the Harold Lloyd Corporation and father of the noted comedian, is "doing as well as can be expected" at the Hollywood Hospital, where he was taken a week ago suffering from a kidney ailment. Dr. William Branch, Mr. Lloyd's attending physician, said yesterday that no complications had set in and that it will be but a short time until his patient will be able to return to his Hoover-street home.

Mr. Lloyd, prominent in both fraternal and film circles, has been associated in business with his son from the first days of his motion-picture career, and handled his affairs as far back as the days when the bespectacled comedian was playing in stock in San Diego.

ANTI-RODEO OPPONENTS PLAN DRIVE

Various Groups to Unite in Demonstration Against Proposed Measure

Plans for a spectacular demonstration by horseback riders and others working to defeat the anti-rodeo bill, Proposition No. 21, will be completed at a riders' rally Friday evening at 8 o'clock at the Hollywood Chamber of Commerce, 6628 Sunset Boulevard.

Many riders in horse shows, county fairs, motion pictures and rodeos, as well as crack mettle wielders of the polo clubs, will meet to arrange details of their demonstration on next Monday.

Dressed in typical costume, according to the group they represent, the riders plan to circulate through various sections of the city, riding some of the finest horses in Southern California. Both women and men are planning to participate.

J. A. McNaughton, vice-president and general manager of the Los Angeles Union Stock Yards and executive chairman of the Rodeo Educational Association, has been asked to preside.

Speakers will include B. M. Howler, western author and scenario writer; Zach Lamar Cobb, attorney and former cattleman of Texas; Tex Condon and a number of the leading western stars in motion pictures.

LARGE GAIN SHOWN FOR POSTOFFICE

October Receipts Far in Excess of Total for Same Month of Last Year

Receipts of the local postoffice had an unusually large increase during the month of October, this year, as compared to last year, according to figures compiled yesterday by Postmaster O'Brien. The figures, which were estimated as to yesterday's receipts, show receipts of \$99,775.94 for October, this year, as compared to \$79,735.68 for the same month of last year. This is an increase of \$20,040.26 for October, this year, as compared to the same month last year, or a gain of 25.14 per cent.

Customs receipts also showed heavy increases, as disclosed by figures arranged by Collector of Customs Schwabe. The exports show the highest advance. The exports for October, this year, were valued at \$12,760,000, compared to \$9,450,000 for the same month last year, an increase of \$3,310,000. The imports for October, this year, were valued at \$4,250,000, compared to \$2,650,000 for the same month last year, or an increase of \$1,600,000.

Shipments to Hawaii increased from a valuation of \$68,397 in October, 1927, to \$86,000 for the same month of this year, an increase of \$17,603.

The collections for the month increased from \$692,616.04 in October, 1927, to \$860,000 in the same month of this year, showing an increase of \$167,383.96.

DENIAL BY WOMAN IN THEFT CASE

Mrs. Lowe Takes Stand in Own Defense at Trial on Hold-up Plot Charge

Denying she had anything to do with the hold-up last year of a bridge party at the home of Mrs. J. M. Cummings, Mrs. Ollie Lowe yesterday took the witness stand in her own defense in Judge Applegate's court, where she is on trial.

Mrs. Lowe is charged with having conspired with Evan B. Blake and W. C. Schaffer to rob the guests at Mrs. Cummings' party.

Mrs. Lowe, who was among the guests, told how two men entered Mrs. Cummings' home and robbed the women present, but she denied knowing the men or having any knowledge of the robbery. She took the witness stand as one of the opening witnesses for the defense after the prosecution rested its case.

Gen. Dist. Atty. Crail and Misses are prosecuting.

FORSAKEN, SHE TAKES FATAL DOSE

Woman Leaves Letter in Which She Blames Man for Squandering Money

Leaving a letter saying that a so-called friend had taken all her money, lost it in business deals and then forsaken her, Mrs. Virginia Piper, 46 years of age, ended her life yesterday afternoon by drinking poison in her room at the El Rey Hotel at Sixth and San Pedro streets, according to police.

In the letter Mrs. Piper named a man friend as the person who took her money.

"He brought me to Los Angeles from Portland, Or.," the note ran, "spent \$1000 which I gave him and then left me. Later I traced him to San Diego, then to San Francisco and back here again. While standing in the clothes I paid for he told me he had nothing to give me. And he left again."

The woman directed that her personal property be held for her son, Harold B. Piper, whose last known address, she said, was 2213 Julian street, San Diego. The body was taken to the County Morgue.

DESQUENT WIFE TAKES ANT POISON

Dependent over her separation from her husband some months ago, Mrs. Le Vella Dyer, 21 years of age, yesterday swallowed two fatal doses of ant poison and died a few hours later in the psychopathic ward of the General Hospital, where she had been taken after emergency treatment at the Georgia-street Receiving Hospital.

Mrs. W. R. Harley, with whom Mrs. Dyer was living at 541 West One Hundred and Ninth street, said the husband, Verne Dyer, lives in Chico, and that his wife had been brooding over their estrangement.

Air Taxi Opens Local Service

Inauguration of the first passenger air limousine service from Los Angeles to any desired point is scheduled for today at Clover Field at 9 a.m., when the Tanner Air Taxi will fly its first air limousine to Mexico with a group of selected passengers. It was announced yesterday.

The project is sponsored by the Tanner Motor Service organization. Persons desiring to travel anywhere by air can summon the air limousine, which will include motor service from the home. Two cabin planes have been purchased, one a Bittson Junion and the other a De-trotter-Stinson, each with a cabin capacity of six passengers. Those listed for passage on the initial trip today include C. T. Tanner, Charles Haad of the Biltmore Hotel, John T. Gage and Rodney Webster. The two pilots will be Charles Downs and Sidney Merritt.

FLORIST DISAPPEARS; WIFE APPREHENSIVE

Leaving his florist shop at Sixth street and La Brea avenue at noon Tuesday without locking the door, Morris Capilouto, 38 years of age, of 702 West Fifty Second Place, has not been seen since, and yesterday morning his wife reported his disappearance to the police. She said she fears he has been the victim of accident or violence.

TWO MORE INDORSE SHAW'S CANDIDACY

Public Works Commissioner McGuire and former Councilman Zahn yesterday added their names to those endorsing the candidacy of Councilman Shaw in the Second Supervisorial District. It was announced by Shaw headquarters. Mr. McGuire cited Shaw's policies in the Council in support of his contention that the Councilman should be elected.

IN ANCIENT DAYS
The younger Pliny, in his day, sat down and took his trencher, pen, and told, in manner just how a Roman gentleman in those old times, would be pleased to spend the passing of his life. And in his letters you may find what matters occupied his mind how he was entertained; he thought he had a carking time, and life seemed joyous and full, as he so well explained. Methinks if some brisk modern day were sentenced thus to spend his day, he'd not like Pliny much. He'd hunt around him for an and give himself a few whacks, and end the sad ordeal. Of modern comforts there were none, no printed novels to read, no radio to bring along and specimens of speech and song from artists everywhere. Screens on windows or on doors, and flies came in, by countless scores, and sat on Pliny's head, mosquitoes from the Roman marlin bused round and round with music harsh, until they were full fed. He had no decent heating plant, cold days he'd freeze, hot days he'd pant, and there was no relief, and if he wished a cooling drink, he had to seek the river's brink, a stark, suggesting grief. The poor workman in our grad knows comfort Pliny never had, yet Pliny made no moan; he thought he lived in luxury, and, looking round him couldn't see a better life. He didn't own. No doubt that in two thousand years the heavy scientists and seers will study poor Pliny and wonder how such comfort much glee in such conditions as we see in these benighted days.

Many a man is generous to a fault who is mighty stingy with his wife.—*Franklin*

Wood Act as Peacemaker in Factional Battle

His Ruler Not Willing to Serve Unless Drafted

BY PAUL LOWRY

James Woods, nationally known boxing man and member of the State Athletic Commission, will be the next president of the Pacific Coast League.

That is, if he wants the job and can be persuaded to accept it.

Both factions of the Coast League are favorable to his election and eager for him to accept the position.

This became known yesterday when he was approached by the side which has secured the support of the majority of the members.

At the same time Woods came out as a candidate in opposition to the side of the majority.

Morrison's 143 Leads in Southland Open

NOVAK, HUNTER HANG UP 147'S

Midweek Pro Scores 74 to Win Low Gross

Low Sixty-four Battle in Finale Today

Wind Keeps Scores High as Leaders Gain

BY EDWARD LAWRENCE

Staggering home with a 74, two over par, Fred Morrison, Midweek Country Club "pro," rounded the thirty-six hole mark in the Southland Open golf championship yesterday.

His nearest competitor by two full strokes, Sunset Fields, course No. 1 will be the scene of a great golfing battle today, when a score of leading "pros" and a scattering of amateurs play the final thirty-six holes for cash and glory.

It remained for Willie I. Hunter, the defending open champion, and Frank Nunnally, youthful Urban professional, to turn in the low scores of the day, a large of 73's. "Wee Willie" struggled valiantly yesterday morning in the face of a gusty wind to climb to the top, and he almost succeeded. His 74 of Tuesday gave him a total of 147 strokes to tie for second place with Joe Nevak of Red Air who turned in a 74 yesterday to tie for cash and glory.

BAKER RING MANAGERS ON CARPET

Handlers Cited to Appear Today for Tactics Used on Referee at Wrigley Bout

BY KAY OWE

Promoter Jack Doyle lost money on the Jackie Fields-Sammy Baker fight at Wrigley Field Tuesday night, but it developed yesterday that he is not the only loser.

Baker's check for \$12,500 has been held up by the State Athletic Commission and he and his managers, Abe Katz and "Doc" Bagley, will probably be suspended and fined this morning when they appear before State Inspector Bill Bomb.

This is the result of the alleged bulldozing tactics Katz and Bagley tried to pull when Referee Abe Roth was giving the fighters their instructions in the ring the other night.

Professing sublime ignorance of what it meant for a fighter to protect himself at all times, Katz and Bagley are alleged by Roth to have attempted to intimidate, bulldoze and high-hand him.

Without waiting for him to finish his instructions to the fighters Roth declares Katz and Bagley repeatedly butted in with so-called "smart cracks," and used profanity as he was leaving the ring after the fight.

Richard Sure Jack Will Hit Ol' Ring Trail

NEW YORK, Oct. 31. (AP)—Add Tex Rickard to the growing list of those who believe that Jack Dempsey, once the king of the heavy weights, again aspires to his old throne.

The master of Madison Square Garden, who accepted Dempsey's retirement after his second defeat by Gene Tunney as final and had steadily maintained since that the old Manassas Mauler had fought for the last time.

roused himself today in Miami Beach, Fla., where he is spending a short vacation, to tell the Associated Press that he had met and

of Ohio State, and all the leading members of the Pacific Coast with the single exception of Warner.

The rivalry between Jones and Pop dates back twenty years when Howard was coaching at Syracuse. His first job after graduating from Yale. Warner was coaching the famous Carlisle Indians and in what Jones calls the toughest game of his season the Redskins defeated Syracuse, 12 to 0, all the points being made via the medium of Jim Thorpe's educated toe.

There was no meeting between the two mentors from that time until the fall of 1925 when Stanford came here and won, 12 to 6. The next year the Redskins also came south and won again, 12 to 12. Southern California invaded Palo Alto last fall and fought the favored Cardinals to a 13-to-12 tie.

It can be seen that Jones has been getting closer to defeating Warner as the years have gone by. First the difference was 12 points, then 4, then 1 and finally none. Perhaps that's an omen.

POP WARNER ONE OF TWO BIG COACHES WHO HAS NOT FALLEN BEFORE HOWARD JONES TEAMS

BY HEAVEN DYER

Clenn (Pop) Warner is one of two outstanding coaches in the country Howard Jones has met and failed to defeat.

T is a Trojan mentor has encountered the veteran Stanford coach on four occasions and Pop leads with three victories and one tie.

The other outstanding mentor Jones has failed to upset is Alonzo Stagg of Chicago. When Jones was at Iowa he had some great teams, but was unfortunately in that he was never scheduled to meet Stagg when so fortified.

Among the outstanding coaches Jones has taken to the cleaners are Kuntz Becke of Notre Dame, Fielding Yost of Michigan, Doc Williams and Bill Spaulding of Minnesota, Tad Jones of Yale, John Wilce

of Ohio State, and all the leading members of the Pacific Coast with the single exception of Warner.

BARRAGAR IN LINE-UP AS CARDS LEAVE FOR GAME

First String Warner Plans to Get Call

Unless a couple of earthquakes happen before Saturday afternoon, the reassembled Trojan first team will take the field against Stanford Saturday afternoon.

It will be the first time since the St. Mary's game that all of the regulars will be on the field at the same time. Mate Barragar, still center, reported for practice in uniform yesterday, but took no intense part in the afternoon's program, favoring his injured hip.

The return of Barragar means that Coach Howard Jones probably will start a line with Capt. Jones and Francis Tappan at ends; Frank Anthony and Jess Shaw, tackle; Clark Calloway and Charley Benson, guard; and Barragar, center. Williams, Edelson, Thomas and Saunders will be in the backfield.

MAY NOT LAST

Particular attention can be given that word "start." The fact that Edelson, Rosen and Barragar are ready to take the field does not mean that they will last the full game. Knees and hips are tricky things. Once they get thrown out of joint, they take on bad habits of doing it too often and too frequently to suit anguished coaches.

The Trojans are certain to take a hard pounding from the Salvars.

WARNER PLANS TO PRODUCE NEW PLAYS

Stanford University (Palo Alto) Oct. 31.—Stanford's mighty football team will entrain for Los Angeles tomorrow night when Saturday they battle the University of Southern California with Pacific Coast Conference honors probably going to the winner of the contest.

Warner's over-enthusiastic machine will arrive in the South Friday morning and will work out that afternoon in preparation for the Trojan tilt.

Late rumors, looking through the barred walls of the practice field, are to the effect that the veteran Stanford coach will spring a couple of new formations on the Trojans, in addition to his now-famous "Formation 12."

Probably Coach Howard Jones will be not at all surprised to learn that Pop has other formations than the favored "K," which is in reality simply an unbalanced line formation, with most of the backs on the right side of the center. Virtually all the Cardinal plays this season, with the exception of pre-formation, have been run off from that line-up. Those who saw Saturday's game with the Trojans will see a couple of others, if our underground information is correct.

FIELDS PASSES THOMPSON IN QUEST FOR DUNDEE TILT

NEW YORK, Oct. 31. (AP)—A match between Jackie Fields, crack California welterweight who knocked out Sammy Baker last night, and young Jack Thompson, San Francisco negro, was abandoned today as a possibility for November 18 at Madison Square Garden.

Fields wired "Yum, McCordie, matchmaker, that he already had eliminated Thompson in a recent bout and preferred to await a shot at Joe Dundee's title. The Baltimore Italian was scheduled to oppose Thompson in a championship battle here November 18, but had to withdraw because of an infected elbow.

Although McCordie hopes to bring Fields and Thompson together in January to determine Dundee's challenger, the November 18 date will not go unutilized. Joe Clark, New York wire, and Baby Joe Green, another Californian, will wage war that night to determine Sammy Thompson's successor.

RABBIT PUNCHES

PAUL LOWEY

HEINECKE, THE SUB

SOME consternation has been noted among the football rabidists over the fact that Walter Heinecke, the Stanford center, may call the plays and direct the offense against U.S.C. in the annual classic at the Coliseum Saturday.

There is really no cause for alarm. Although I can't recall of a center dragging down such an assignment before, Heinecke is one of those rare individuals who fits in anywhere. His capabilities and his versatility are unlimited. He's as smart as a whip, and tough and rugged as an Oregon pine.

He learned the signals for five positions on the Stanford team last year, and when he was injured before one of the Cardinals' northwestern invasions, Pop Warner stoically remarked he'd have to take five more men on the trip.

Only a sub, Heinecke was ready to play center, guard, tackle, end or quarterback.

That's why he is considered a potential team director.

There's really no secret about it.

Substituting for Freeman at tackle he was the hero of Stanford's 7-10-5 New Year's Day victory over Pittsburgh last January. He broke up Pitt's sequence of plays by snatching Hogan for a 3-yard loss after the Panthers had rattled off fifty-five yards on their only sustained march of the day.

And when Pitt scored as a result of Wilson's fumble he blocked Booth's try for goal—spurred the try of a man who had shot four straight between the uprights in the game with Penn State.

Heinecke made it possible for Hoffman to win the game with a successful boot when Wilson later redeemed himself by snatching Sims' fumble and scoring.

ABOUT SPUD LEWIS

This was the first game in which Heinecke really had been given a chance to shine, but he was ready when the call came to trust the Stanford offense in his hands Saturday.

And that seems very likely unless Pop starts Spud Lewis.

Capt. Bill Hoffman was pretty much of a bust as a signal caller against Idaho, the Cards being held for down twice right on the goal line.

Pop finally had to send in Lewis with the scoring play, and Stanford made its first touchdown just before half time.

Of course, if Lewis pushes somebody out of the backfield as he Idaho showing entitled him to, he will call the signals.

Spud was variety quarterback for two years. He scored Bill Murphy out of the job in his sophomore year, and although Bill Pop shared honors with him the second year it was Spud who was credited on to supply the galvanizing spark when things were going bad.

This year Spud just sat when Warner decided to use Formation B with two heavy fullbacks instead of a fullback and a lighter quarter. However, Spud got the "ack" before the Idaho game and learned how to be a flying fullback. And now he's the best on the campus.

CREDIT FOR FIELDS

"A PROPHET is not without honor save in his own country."

That is an old saying, but it seems to apply with redoubled force in the case of Jackie Fields.

The classy local boy is not being given credit for doing what no other lightweight in the country has done to Baker since his embryo days—knock him out.

Tommy Freeman couldn't do it. Huffkins couldn't do it. Young Corbett, hailed by San Francisco as the best bet ever developed on the Coast, couldn't do it. Dundee, the champion, wouldn't take a chance.

But Fields did it—and he performed the trick in two rounds.

Give the boy credit. If Baker has slipped Fields is the first one who discovered it.

Fields displayed hitting power the other night that few suspected of him.

The boy now throws his weight into his punches whereas in the past he was content in being meaner than cruel.

Combined with his boxing skill this will carry him to the top of his division.

He will beat Joe Dundee as easily as he beat Baker. Check that one up in the old note book.

S.C. REGULARS TO START TILT

(Continued from First Page)

Cardinal backs, and those trick knees and whatnot are liable to give away at any moment. And then, again, they may last through the entire game.

By placing Capt. Hibbs at end, Jones goes back to the system he wanted to try since time ago and didn't get a fair chance to, because of injuries. The Trojan leader will play the end position on offense, to give the Trojan power plays added weight, and on defense will slip back to his old position at tackle, putting Charley Boren at end, and sending Shaw to guard.

Fans will remember that Hibbs' great work in breaking up the Stanford reverses last year started him on the road to all-American honors. Hibbs still is carrying his best game around in his system. He hasn't gotten it out this year. Several times—too frequently to be counted—Hibbs has been knocked flat on his back in plays directed at him. That isn't like the Hibbs of yore, and Trojan fans will expect him to be at his best Saturday.

With Hibbs at end, and all the other regulars back, the Trojan offensive will be at its peak again. Boren, Edelson, Saunders and Thomas will be leading the way for Williams when he sweeps around end and through tackle. The value of experienced and capable men was shown at California, when two of those four interference men were on the sidelines. Not to take any glory from the brilliant California defense, it must be admitted that the Trojan offensive drive was not up to par. Stanford ends and backs will find the task of stopping the Trojan plays much sterner than they might expect from witnessing the Trojan-Bear tilt.

According to reports from the north, all of "Pop" Warner's athletes are in good shape, and ready to perform. His usual line-up is scheduled to start the fray. This includes Harder and Muller, ends; Artman and Sellman, the 200-pound tackles; Robesky and Post, guards; Heinecke, center; Fields, quarterback; Sims and Wilton, halves; and Capt. Bill Hoffman, fullback. Backing up this array of talent, Warner has Lewis, his new halfback star, Prentiss, Rother, Simpson, Smelling and a half dozen other backs to turn into the fray at important moments.

It is on this reserve backfield strength, in addition to an abundance of line reserves, that the favoritism of Stanford is placed. The Stanford reserves have been tested, and came through—as witness the 7-4 Idaho debacle. The Trojan reserves have been tested, and, to date, have been found wanting. If they can produce the unexpected Saturday there is a chance for a Trojan victory.

CARD ELEVEN OFF TONIGHT

(Continued from First Page)

Warner, according to the whispering campaign, is using two backfields alternately behind his first-string line. These are substantially the quartets which worked out in the first and second halves of the Idaho game. Fields, quarterback; Wilton and Sims, halves; and Hoffman, full, constitute the one, and Smelling, quarter, Prentiss and Lewis, halves, and Sinking, full, the other.

Speculation now going the rounds among the football men is as to which backfield will start the U.S.C. game and as to how long it will last. Will Warner use the first string, or will he use the second? Fields, quarterback; Wilton and Sims, halves; and Hoffman, full, constitute the one, and Smelling, quarter, Prentiss and Lewis, halves, and Sinking, full, the other.

The men are inclined to think that Warner will not send substitutes singly into either of his backfields, but will jerk and replace the backs by fours. This plan has the advantage of keeping a psychological effect which is not to be sneered at. Four white jerseys look unpleasant to tired line men of the opposition.

SAGEHEN NETTERS CLASH FOR TITLE

CLAREMONT, Oct. 31. (Exclusive)—Continuing the duel that has been raging for three years between them, Lavan Zerbe, varsity tennis captain, and Donn Bent, present champion, clash tomorrow for the Pomona College court title. The two singles played their way into the finals of the Mayers Cup tournament here today, Zerbe scoring a straight-set win over Ted Campbell, while Bent won over Stan Hahn, last year's frosh leader, in three sets. Zerbe should be favored to win over Bent when they meet tomorrow. He is in better form than the blond junior.

City Organization Told of

Women Voters' League Also

Mrs. Grady's Friends Lead
Cheers for Governor

BY MYRA NYE

It started out as a meeting at
which favors were to go to neither
side. It ended in a Democratic
demonstration for Al Smith, led by
Mrs. Lucretia Del Valle Grady. She
had traveled from Berkeley to speak
at this gathering here of the mem-
bers of the League of Women Voters
and the Men's City Club, meeting
in joint session at the City Club.
The other speakers were: Marshall
Stinson and Mrs. Robert J. Bur-
dette speaking for Herbert Hoover,
and ex-Senator Quinn for Gov.
Smith.

Mrs. Lucretia Grady Timmons
as president of the league intro-
duced Mrs. Arthur Wier vice,
chairman of the department of ef-
ficiency in government, was toast-
mistress. The dining-room, foyer
and galleries were packed.
"Have any of you heard of this
man Smith?" began Mrs. Grady
and the response demonstrated not
Smith's popularity but her own
from a house packed by previous
plans, with her friends. "They talk
more about what Smith wears on
his head than what's inside his
opponent's Smith is not a mechanical
engineer. He is a social engineer,"
she said.

MRS. SMITH FRAMED
Among the things presented to
the Democratic candidate, as Mrs.
Grady said, is his wife.

"Katie Dunn and I are security
sisters," said Mrs. Grady, "the se-
curity whose college is the nursery.
I have four children, she has five.
Our college yells is the hubbly. She
is a charming person, a deligh-
ful housewife with Irish wit and grace.
She is a graduate of the Sacred
Heart Convent School in New York
City. I have visited at the White
House as well as in the Smith home.
The difference is that there are
smiles in the Smith circle."

"I am a Catholic. My ancestors
came in Spanish ships to California
and also others of them came in
the Mayflower to the other coast.
Both of these groups came to a land
where they knew they could think
and feel and pray as they liked.
Think twice before you take away
a religion to American prin-
ciples or tolerance."

strated his abilities to perform the

omic adjustments may be the yard-
stick of world peace and Mr. Hoov-
er speaks the governmental lan-
guage of many nations, knowing
these nations intimately; and, final-
ly, because Mr. Hoover is morally
dependable."

Ex-Senator Quinn defended the
honesty of the Governor of New
York and called to mind that Tam-
many is a local organization. He
asserted that Smith is well in-
formed concerning farm relief be-
cause he is Governor of a great
agricultural State; and that he
knows Smith's building. Boulder

Mr. Stinson said he had in-
tended to speak only construc-
tively of the reasons for Hoover's can-
didacy but he would accept the
challenge of both Mrs. Grady and
ex-Senator Quinn. He told of the
corruption of Tammany. He said
if there had been graft and corrup-
tion in the Republican party, the
same party had got in all the po-
tentially corrupt. He stated that
there is very little drinking today
was met with laughter.

"If we wish to go forward as the
leading nation of the world we have
but to follow the progressive pro-
gram already mapped out by that
great statesman, Herbert Hoover,"
said Mr. Stinson.

New Support for Bond Issue

At a meeting of the board of di-
rectors of the Broadway Association,
of which Malcolm McNighten,
president of the Broadway Depart-
ment Store, is president, and Gen.
Walter P. Story chairman of the
executive committee, held at the
Alexandra yesterday, the board was
unanimously in favor of voting for
the bond issue for the State build-
ing.

E. A. Bodewick, managing director
of the Broadway Association, states
that the association believes it is
the civic duty of every citizen of Los
Angeles to vote "Yes" on the issue
for the State building site. A cen-
tralized State building, for transac-
ting under one roof all the State
departments now located in Los
Angeles, is a convenience and an
asset which is badly needed by Los
Angeles, it was held.

Berman's Bail Bond to Stand Until Sentence

After a conference yesterday at-
tended by United States Attorney
